

August 2011

A newclear Music Press Release for the new remix EP: **Squeezer – Pure Juice** (NCRM005EP)

newclearmusic.com

The latest release on **Newclear Music** is also the first official release by Auckland's **Squeezer** – a 5-track multi-genre remix EP of their 2008 chill-out number "Pure Juice", written and performed by **Karl Howe** and **David Czepanski**.

First up is **Squeezer's** own TSV Mix, a pumping, uplifting rework of the original. It is followed-up by newcomer **Will Marshall**, and his extension of the downbeat/chill-out theme, with a hint of breaks. Next on the line up is Dunedin man **Haszari**, whose remix simply had to be pigeon-holed and it was decided that it was none other than "*back room summer jandal acid disco*". Then, **Soul Science** return again for Newclear and head straight for a dancefloor assault with a slamming drum & bass cut. Finally, **nsu** dives into experimental territory and delivers a dark mix infused with elements of ambient, dubstep, garage and jungle.

The original version of "Pure Juice", which is not on this release, can be heard at:

<http://soundcloud.com/squeezer/pure-juice>

"**Pure Juice - Remixes**" will be officially released on **August 29 2011** and will be available in digital format at online retailers such as Apple iTunes, JunoDownload.com, Bandcamp and Amplifier.co.nz.

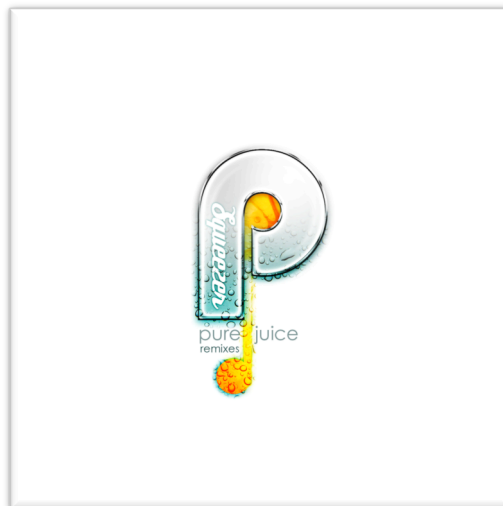

For more information, interviews and/or bookings, please contact *Ivan Vuković* at **newclear Music** by email at info@newclearmusic.com.
